PROTECT OUR
WATERFRONT

PROPOSAL
to CHANGE
the ZONING
and the City's

Official Plan to permit 7 four-storey town houses
at 51 Lakeshore Drive

Creates a wall between the community and the lake along the waterfront trail

Does not fit in with existing neighbourhood—TOO BIG, TOO HIGH

Developer should respect current zoning & Official Plan
Why should this developer be given a change from the present zoning which allows a single detached or semi-detached home?

Units encroach on designated Parks and Open Space Areas - Natural Areas. Developer wants to change shoreline.

Is this an opportunity for the City to buy the land to create a parkette and a window on the lake ?
